FOR IMMEDIATE RELEASE

Local Vinyl Siding Professional Named Vinyl Siding Institute Certified Installer

Washington, D.C., March 29, 2013 – Monty Todd of Lee's Summit, MO has received third-party verification of his vinyl siding installation skills and knowledge and was named a Certified Installer through a program sponsored by the Vinyl Siding Institute, Inc. (VSI).

Through the *VSI Certified Installer Program*, a certification program for vinyl siding installers, Todd has completed a rigorous course of study and examination on the proper installation techniques for vinyl siding, soffit and accessories, as verified by an independent certification firm, Architectural Testing, Inc., and based on *ASTM D4756*.

"The *VSI Certified Installer Program* was created to recognize top quality vinyl siding installers," said VSI President Jerry Y. Huntley, "By passing our course and examination, Monty Todd has demonstrated the knowledge and skills to install quality, durable vinyl siding."

VSI recognizes an individual as a *Certified Installer* if they have at least one year of experience and passes a course and examination on correct installation techniques. Installers with more than three years of experience may qualify to take the test without the course. VSI Certified Installers receive an identification badge and are listed in the registry on VSI's website, www.vinylsiding.org.

###

The Vinyl Siding Institute, Inc., located in Washington, DC, represents manufacturers of vinyl and other polymeric siding and suppliers to the industry. VSI is the sponsor of the *VSI Vinyl Siding Product Certification Program* and the *VSI Certified Installer Program*.
